Primary Health Care Research Evaluation and Development **PHC RED Tri-State Program**

Professor Weiss's visit to Australia is sponsored by the PHC RED Tri State Program.

The Primary Health Care Research, Evaluation and Development (PHCRED) Strategy is funded by the Department of Health and Ageing.

The program engages the Universities to work collectively to increase the pool of primary health care researchers, to build research capacity and sustainability in health research, and to facilitate the uptake of evidence in policy and practice.

The **Tri-State Program** is a collaboration between of the University of Adelaide, Flinders University, the Spencer Gulf Rural Health School in South Australia, the Centre for Remote Health in the Northern Territory and the Greater Green Triangle University Department of Rural Health in Victoria.
